The CTF Connection takes on new look!

Starting in 2004 Hazel McLeary became the “Media Director and CTF Public Relations Coordinator” and at that time took on the responsibility of editor for the “CTF Connection”. Hazel was always reporting on Team Canada’s activities, in her travels, she would brag about bowling and Canadians whenever she had the opportunity; it was fitting that she report about bowling in Canada and the best way to express her Canadian Pride was by writing!

Since Hazel’s retirement the CTF Connection has been looking for a person to take on the responsibility that one person did in the past. No one person will ever be able to duplicate or accomplish the expertise and love Hazel extended into the work of the CTF Connection.

With that said myself (Sandy Lowe) and Dan Tereck have agreed to be Co-Editors for the overall publication of the CTF Connection. Lee Wilkins has joined the team to work on the CTF Connection as Youth Editor. Lee will be covering coast to coast news and special events of our youth in Canada.

The next time you are in the bowling centre don’t be surprised if someone comes up to you with pen and pad in hand asking questions. The CTF Connection is in the process of networking reporters coast to coast. ***We still have several areas of the country where we need people who can send in news.***

“Keeping our bowlers connected Coast to Coast”!

“Our mission is to publish “coast to coast” bowling related news and to keep our readers updated on international events.”

London is a Bowling Town (Submitted by Sonia Mitchell)

Everyone knows that London is a hockey town, why wouldn't it be with a team to cheer on like the London Knights. What everyone doesn't know is that London is also a bowling town and we have a special group of people, all ages and all skill levels. We are a little quieter about our sport but we are very proud of our community.

Whether you are age three or 100, a beginner or a champion, looking for a recreational sport or a challenge, bowling is a sport that accommodates it all. London & District 10 Pin Bowling Association is very proud of our bowling community which includes bowlers from Woodstock, St. Thomas and London.

The 2012-13 season which started in September is off to a great start. Congratulations on the following honour scores to date:

Perfect 300 games: **Mark Decman, Ben Gripp, Jill Friis, Aaron Wilcox**

11 Strikes in a row: **Lee Restorick, Wes Giem, Jim Martin Jr. Tom Childs**

Youth 700 3 Game Series: **Justin Mitchell (3), Robbie Chaplin (2), Mykaela Mitchell**

London and District has been fortunate to have the opportunity to cheer on some of our bowlers in provincial, national and international tournaments. Bowlers such as **Jill Friis, Mark Decman, Fred Phillips, Ryan Trussler, Carrie Hopkinson, Marcus Dottermann** and **Mykaela Mitchell** to name a few, have made us so proud as we watched them compete on television or online. It is so exciting to watch someone you know from your community representing London and accomplishing so much.

We are also very proud of our very own **Carrie Hopkinson**. Carrie grew up in the youth program at C&D lanes in Woodstock, Ontario. Because of her bowling accomplishments, Carrie is attending Florida A&M University on a bowling scholarship. She currently holds the top average on their women's team.

Bowling as a youth brings many scholarship opportunities. Colleges and universities in the USA scout our youth at tournaments and as well our youth bowlers have the opportunity to win scholarship funds, they can use at any college or university, through league bowling and tournaments.

If you are interested in finding out how you can get involved in our bowling community, contact us at ladtpba@rogers.com. We can point you to a league that fits your needs.

Canadian Lakehead Tenpin B.A. – Thunder Bay, Ontario

(Submitted by Brian McLean)

Joe Kolodziejczak, a 200+ average tenpinner in Thunder Bay, traveled to Las Vegas in December where Red Rock Lanes was hosting a new International tournament for senior aged men and women bowlers of World Tenpin Bowling Association (WTBA) member federations. He was the lone Canadian male entered. The **2012 International Senior Open** ran from Dec. 2-8. Although he did not cash, he said it was an amazing tournament and looks forward to the tournament in two years.

Nicole Walker from *Mario's Bowl*, and **Brad Denning** from *Northcrest Lanes* in Sault St. Marie, will be representing Northern Ontario at this years' National World Cup. This will be her third trip to the National World Cup. She participated in 2008 and 2010 representing Northern Ontario. *Mario's Bowl* was last year's National host centre.

Several bowlers rolled honour scores to start 2013 off on the right foot:

- **Luke McMillan** in the Mario's Youth Tenpin League shot Thunder Bay's 1st perfecto of the season. This is his second perfect game in two years.
- **Ken Martyn** rolled a 825 on January 3rd that included a 298 game.
- Martyn's teammate, **Mike Makela**, rolled Thunder Bay's high game of the season with a 299.
- On December 19th, the first honour score of the season was a 298, rolled by **Curtis Laye**.

Laye and Andrew Hill recently participated in the Holiday Classic in Duluth Minnesota with Hill placing 2nd and Laye 3rd. It should be noted that last season, Andrew set two new association records: most 300's in a season (four), and an association high series of 834. As of February 3rd this season, Hill has Thunder Bay's high average of 225.

Also in Duluth, youth bowler, **Aaron Craig**, who rolled a 299 at last years YBC Nationals, won the youth division of the SubWay Classic in Duluth, Minnesota in January.

- The 2013 Doubles champions were **Laprade** and **Weiss** with a 1489 total. **Laprade's** 737, plus **Weiss'** 578 plus their 178 pins handicap gave them the crowns. Four pins behind them were the team of **Marjorie Gottfred** and **Aaron Craig**.

Sports Officials Canada announces National Officials Day – April 17, 2013

OTTAWA – It's official! Mark your calendars. Sports Officials Canada is pleased to announce the designation of April 17, 2013 as National Officials Day in Canada. The theme of this - the inaugural event, is "Respect the Official". The aim is to increase the awareness of the importance of officiating to sport and to promote respect of officials.

The estimated number of technical officials in Canada who come under the jurisdiction of our National Sports Organizations technical officiating programs is 250,000, of which 150,000 are registered. These are in addition to the other 650,000 Canadians who perform some sort of officiating duty each year.

Sports officials are the "keepers of the game". It is their role to ensure fair play and safety for all participants. For the majority, it is a volunteer activity – they give up their evenings and weekends to do something that they love. It is their dedication and passion for what they do which makes them an integral part of the sport system.

And it is not just here at home that they contribute to sport. Canada has longed been viewed as a world leader in the world of officiating. This is evidenced by the 144 Canadian technical officials sent to the Beijing, Vancouver and London Olympics and the hundreds of Canadians who referee and judge at World Championships and World Cups each year.

Sports Officials Canada invites all sport organizations and groups to plan an event for April 17th, 2013 to acknowledge their officials. National Officials Day is a chance to thank the men and women who officiate our sports. Take time to recognize their efforts and the tremendous impact they have on the games we love.

“We want to deliver the message to everyone in sport that disrespecting a sports official is never acceptable nor should it ever be considered “part of the game”, said Denise Pittuck, SOC Executive Director.

Visit the Sports Officials Canada website – www.sportsofficials.ca to find out more about National Officials Day and how you and your officials can participate.

Sports Officials Canada is a federally incorporated national organization dedicated to promoting excellence in sports officiating. SOC represents Canadian technical officials as a national voice. A little about **Rick Benoit** & Bowl U (copied from BowlU)

Coaching the Coaches...

The growth of our sport and industry depends on the ability of the Industry Leaders, Proprietors, Coaches, and Pro Shop operators working in a common direction. While all sports have a recreational level at their foundation, there is a staircase that athletes can climb to reach their desired level of participation. While most will never want to pursue participation beyond the recreational level, growth depends on the ability of the industry leaders to build a staircase of development. When looking at the present structure in the sport of bowling there are 2 distinct levels of participation, Recreational and Professional. The challenge is building the staircase between the 2. One of the objectives for BowlU is to help build that staircase. BowlU is based on the theory of building a solid foundation first. We want to offer that same objective to those that we feel are the driving force for the growth of our sport and industry. BowlU is trusting that our focus on a strong foundation will aide all who share the common goal for growth and development to join in the process of a more defined staircase. Together we can build a staircase of knowledge and experience that will provide a successful future for the sport and industry. Structure and proper recognition is the basic fundamentals of the BowlU initiative and with those fundamentals in mind we have created our 3 Training & Certification Programs.

The growth of our sport and development of our athletes is directly related to the coordinated effort of those that are in touch with the everyday bowler. Creating pride, passion, and motivation will nurture the large participation numbers we have in the sport of bowling. The BowlU initiative will build the structure we need to eliminate the confusion that slows the growth of our sport and industry.

Using strategies based on proper recognition, BowlU is a staircase of learning that allows our members to reach the level they choose at a pace they are comfortable with. While BowlU will do everything it can to help individual bowlers, it is our belief that we can do more for the bowlers, sport, and industry by coaching the coaches.

- The 8 Pan Am only sports include the following – Men’s and Women’s Baseball, Bowling, Karate, Racquetball, Roller Sports (Artistic and Speed), Men’s and Women’s Softball, Squash, and Water Ski & Wakeboard

IOC Making Changes - Could Bowling Benefit?

The International Olympic Committee announced that “wrestling” one of the oldest sports of the games has been removed, many bowlers wonder how this might help bowling. Kevin Dornberger, president of the WTBA is quoted; *“The current IOC shortlist was published in 2011, bowling was in the last cut out. The next short list will be determined in 2015; we hope to be on it. There are 37 other sports that also want in the Olympics who are our competition; this is a process that requires perseverance and patience. I'm not very patient but that's the way it is.”*

“The good news is that the IOC does appear to be serious about removing some existing sports so that new ones have an opportunity. Without removal there is no opportunity.”

Bowling leaders continue to work at having the largest participated sport in the world included in the Olympic venue.

Kegel's John Davis - The Loss of an Icon

John Davis, the founder of the **Kegel Company**, was an industry icon, a visionary and pioneer in the creation of bowling products and services that promote fair competition on a consistent playing field. He passed away on Friday morning January 25. He was 64. John's family and the Kegel Company request that in lieu of flowers donations may be made to the *John Davis Historical Preservation Memorial* - a newly created fund benefiting the International Bowling Museum & Hall of Fame.

One-hundred percent of the proceeds will be applied to the preservation, organization and research of historical bowling documents and artifacts. Please send donations to the IBM/HF, 621 Six Flags Drive, Arlington, TX 76011, or use the "donation button" at www.bowlingmuseum.com. Note: The donation should be applied to the memorial fund.

USBC Queens Tournament

The USBC has released Bulletin 1 for the **2013 USBC Queens** tournament, a World Bowling Tour event for female bowlers, which will be held from August 31 to September 5 at Sunset Station's Strike Zone in suburban Las Vegas immediately following the **WTBA World Championships** (August 16-31). Bulletin is

WBT Main Championships Japan January 15 – 19, 2013

(Submitted by Felicia Wong)

From January 15 – 19th, 2013, the Japan Bowling Congress hosted the International Bowling Championships of the World Bowling Tour (WBT). The tournament was held at Inazawa Grand Bowl in Inazawa City, Japan, which is the current Guinness World Records holder for the largest bowling centre in the world.

In hopes of “promot[ing] bowling and making bowlers’ dreams come true” by offering a world-class field, this unique event encompassed a short, exciting format with a talent pool from all over the world. To make up the field, bowlers came from eight different categories: finalists of the previous event, world champions/regional champions of the Asian Championships, seeded bowlers from the Professional Bowlers Association, the Ladies Bowling Organization, the Japan Professional Bowling Association, the Japan National Team and qualifiers from Local Qualifications and an International Qualification. This year the field included world class bowlers such as Shayna Ng, Liz Johnson, Kelly Kulick, Tommy Jones, Michael Fagan, Remy Ong, etc. Amongst the international field was Canada’s own **George Lambert IV**.

The format for this event was quite unique in that the qualification round consisted of only nine games within three blocks. From there, the semi-finalists would bowl six games in two blocks. Five bowlers proceeded to the televised finals; the four best bowlers and the best local bowler, wherever they were seeded after the semi-finals. With this type of short format and field, it was important that bowlers get off to a quick start and make every shot count.

To say that the scoring pace was high would be an understatement. Scores started off firing with the leading qualifiers after the first block at 792 and 795 for the women and men, respectively. Scores fell slightly after the nine games of qualifying were complete where the leaders were ONLY averaging 240 and 243 for the women and men, respectively. Although, Shayna Ng, leader of the women did have a smaller block on the last qualifying block to tighten the gap to only 12 pins between her and second qualifier, Liz Johnson of USA. Leader of the men's qualifying was Japan's own Saito Shigeo, closely followed by Tommy Jones of USA. The top 24 in both the men's and women's division moved on to the semi-final round. Unfortunately, George was unable to get the scores going and finished in 107th after the 9 game qualifying.

During the semi-finals, the women had an interesting turn of events where one of the local bowlers, Nishimura Miki, who would have qualified 15th, ended up qualifying in the top 5 as the top local, ousting Jazreel Tan of Singapore. She was the only local qualifier to make the semi-finals. Rounding out the women's top 5 was Shayna Ng (SIN), Liz Johnson (USA), Zandra Aziela (MAS) and Kelly Kulick (USA). In the men's division, no local bowlers qualified for the semi-finals and the top 5 qualifiers were Tommy Jones (USA), Rafiq Ismail (MAS), Chris Barnes (USA), Suzuki Hiroki (JPN) and Sean Rash (USA). Both the men's and women's top 5 finalists averaged over 233 for the 15 games.

The television finals consisted of the top 5 bowling all together in a one game match, where the two lowest scores were eliminated. The three advancers would bowl another game and the lowest would again be eliminated. The final two remaining would then bowl a single game to determine the winner of the International Bowling Championships.

In the women's division, Liz Johnson led the first elimination round in the top 5 with a 237 while Shayna Ng, Kelly Kulick and Zandra Aziela fought a tight race for the third spot with games of 218, 214 and 212, respectively. Zandra and local Miki were eliminated. Shayna and Kelly proceeded to cruise past Liz Johnson's 201 with games of 252 and 236. Shayna's streak continued through the finals where she defeated Kelly 248 to

201.

In a surprising turn for the men, Chris Barnes and Hiroki Suzuki were eliminated with low games of 180 and 190, compared to Tommy Jones' and Rafiq Ismaili's scores of 261 and 268. Sean Rash bowled a steady 215 to coast into the second elimination round, which Rash lead with a 247 and Jones a 229. The final match between Jones and Rash came down to the tenth but in the end Jones was victorious, beating Rash 209-204.

Shayna Ng and Tommy Jones each took home approximately \$75000 USD and added to their suite world championship titles.

As a bonus, a trios event was held for those who did not qualify for the television finals. Two trios teams made up of the three best local bowlers and the three best international bowlers bowled a one game Baker match. The Baker format consists of each player alternating frames: the first player bowling the 1st, 4th, 7th and 10th frame, the second bowls the 2nd, 5th and 8th frame and the third bowler bowls the 3rd, 6th and 9th.

The three best international women, Jazreel Tan (SIN), Jacqueline Sijore (MAS) and Tannya Roumimper (IND), were ousted by top local bowlers Rina Asada, Sinon Izumune and Shima Washizka, 204-170. And the top international men, Mike Fagan (USA), Jang Dong-Chul (KOR) and Ryan Cimenelli (USA) defeated local bowlers Shigeo Saito, Kengo Tagata and Teruyuki Obara 245-193.

Overall it looked like a fun tournament that will hopefully continue to bring the top of the top together and keep promoting bowling all over the world. For full results and televised finals, visit <http://jbc-int.jp/ibc2013/>.

- 1950: Hoge Lumber Company entered the bowling business as the sole manufacturer. Most of the bowling lane pine came from the Carolinas and Arkansas areas.
